Re: Mills and Gibson

This A.M. operative went to the home of Perie S. Whitham of 53 Drift St. and spoke to him. He stated that he knows Benjamin Mills who lives at 51 Drift St. very well and that he is not related to Jim Mills. He stated that there was a family gathering held a short time ago in the house and he spoke to Mr. Mills, asking him if he was related to Jim and he stated that they were not related.

Operative then went to 290 Redmond St. the home of Mr. Walter Boudout and interviewed him. He stated that he worked at Mr. Dirnzer's Slaughter House near Stumpy Gilliland's place years ago, but he did not know any of the people who patronized Stumpy's place. Operative then asked him if he knew Mrs. Gibson. He replied that he knew her when she used to drive a horse and wagon around town packing up garbage. He further stated that when anything was lost around town, Gibson's would be the first place the Police would go to to see if the missing things were there. This was about all the information Mr. Boudout could furnish.

Respectfully submitted:
